Create a
miniature flower
garden with
Sustainable
seed paper, and
watch it **Grow**

TRIM—The cut of the final piece

8.589—8.589 inch dimension

SAFETY—Keep important text and graphics within this line

Within this box
contains a seed
paper card. This
card is made from
biodegradable
paper that when
placed outdoors
will create a
miniature garden,
where ever it is
placed.

Lawton Printing Services is a strategic partner that provides commercial offset, personalized digital printing and marketing solutions to our clients. Our team approach customer service, expertise and **environmentally** friendly practices set us apart. We can handle both small and large jobs, so we can help you come up with an effective solution not matter the size of your project.

Create

Sustain

We are focused on **reducing waste**. By using top-grade paper with highly-trained press operators, we have considerably reduced the number of test or "make-ready" sheets needed to run through the presses as we set up your **printing** project.

Grow

The criterion put forth by the FSC seeks to create "the highest standards of forest management" that are "environmentally appropriate, socially **beneficial** and economically viable." FSC certified paper stocks are readily available and Lawton Printing **Services** routinely recommends FSC certified materials. Many of our stock house papers are FSC certified, contain **recycled** content and are reasonable economic **options**.

Mission

At Lawton Printing Services we are committed to **environmentally responsible** printing practices. Lawton Printing Services is the only commercial printer in the Inland Northwest with Forest Stewardship Council (FSC) certification by Rainforest Alliance. To learn more, visit our website at www.lawtonprinting.com or ask for easy, innovative solutions using FSC certified paper.
